CURRENT CHALLENGE
Team wants AWS-native container orchestration without managing Kubernetes control plane concepts.
Choose the best answer below.

Amazon ECS
Amazon EKS

JUST-IN-TIME AUTOPSY

Streak broken: 0 → 0. Damage resets to base on your next correct answer.

QUESTION CLUE WORDS
AWS-native · container orchestration · without Kubernetes · control plane

YOUR CHOICE
Amazon EKS
Amazon EKS signals:
Kubernetes · managed control plane · node group · pod · IRSA · cluster
AWS helping run Kubernetes so Kubernetes app boxes have a control plane.

CORRECT ANSWER
Amazon ECS
Amazon ECS signals:
task definition · container service · cluster · capacity provider · serverless launch type
a coach for containers that starts and keeps app boxes running.

HOW TO TELL THESE SERVICES APART
Simple difference: Amazon ECS is AWS's native container orchestration service. Amazon EKS is AWS's managed Kubernetes service for teams that want Kubernetes APIs and ecosystem compatibility. They get mixed up because both run containers on AWS. The simple distinction is: ECS is AWS-native container orchestration, while EKS is managed Kubernetes.

WHY THE CORRECT ANSWER FITS
Fully managed container orchestration service for deploying and operating containerized applications on AWS. The clue words were AWS-native · container orchestration · without Kubernetes · control plane.

1 Learn

Definitions and keywords are practiced in both directions to strengthen active recall.

2 Recognize

Signal words are tested beside credible, similar-service distractors.

3 Decide

Scenario choices happen under boss pressure, streak damage, and star goals.

4 Improve

Autopsies explain the clue, the winning service, and why close options fail.

The gap between flashcards and mock exams.

A repeatable practice layer for candidates who need more depth than passive review and more momentum than another full-length test.

THE NICHE

Cloud Architect Quest creates a playable middle: short, consequential decisions with visible progress and immediate remediation.

WHO IT IS FOR

TIME-CONSTRAINED CANDIDATES

Meaningful sessions that fit between work and life.

EXPERIENCED ARCHITECTS

Focused refreshers for nuanced service distinctions.

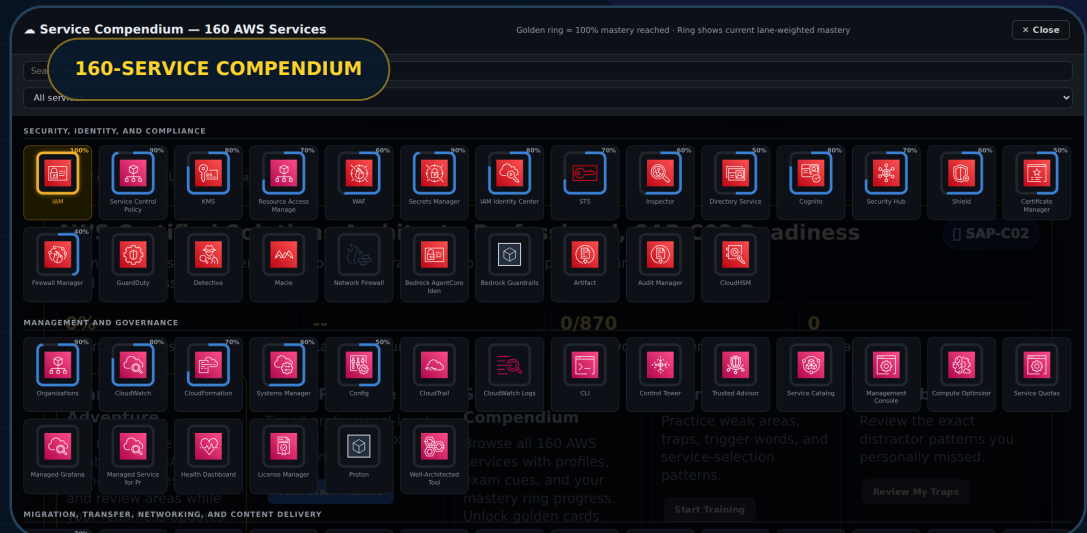

VISUAL AND GAME-MOTIVATED LEARNERS

Progress, bosses, maps, and mastery make repetition tangible.

A REUSABLE PRODUCT WEDGE

- Offline-first, single-file experience with persistent local progress.
- Expandable into more certification blueprints, cohort tools, and instructor modes.
